

Enpowergrid Electra Series Commercial DC Fast Charging Station

ECOBOOST EV CHARGER 240

✓ 24/7 ONLINE SERVICE

✓ TECHNICAL SUPPORT

Drive More, Charge Less

Our innovative charger is designed for flexibility and reliability, perfect for various commercial needs. With integrated smart technology this battery offers smart, safe, and efficient charging for longer drives while withstanding dust, water, and corrosion.

Highlights

- Self-Developed Control Module
- Expandable Design of Split Cabinet
- Diversified Scenario Operation
- Perfect for Commercial use
- Integrated Smart HMI
- Safe and Reliable
- Dustproof
- Waterproof
- Anti-corrosion
- Multiple Fault Protection

Charger Specs

- Power Wiring:** 3P+N+PE
- DC Voltage Output:** 150 ~ 1000VDC
- Charging Cable Length:** 5 Meters
- DC Power Output Rating:** 60~240KW
- Cell Configuration:** 3.2VDC/100Ah
- Constant Power Range:** 300 ~ 1000V DC
- Maximum Output Current:** 250A
